

# Smart Pixel: Cookie Control Extension

The Cookie Control extension is available for the Smart Pixel. This plugin allows you to access the properties of Webtrekk cookies. You can perform the following actions for cookies:

- Assign a new track domain and/ or track ID
- Switch from a client cookie to a server cookie (first-party cookie to third-party cookie).

[Documentation: Smart Tracking Pixel \(wtSmart.extension.cookie\\_control\)](#)

Please note that this extension is not free of charge. If you are interested please contact your Webtrekk consultant or [support@webtrekk.com](mailto:support@webtrekk.com).
